**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

First you kill net neutrality, and now you are trying to kill local independent Internet Service Providers? What is wrong with you people? How do you sleep at night?

Is the lobbyist money that worthwhile to you? This country is pathetic compared to other countries when it comes to the cost and speed of Internet connections due to your backwards policies, and now you are trying to make the market even more of a monopoly so that there is no incentive for speed improvements or cost savings.

I'd say just let the lobbyists write all your policy rules, but it looks like they already are. I can't wait to make my thoughts clear to you in the upcoming elections, if this is not clear enough.

Lance Kuehne
